Dear Mr. Fowler:

The Central Intelligence Agency has advised the Department to proceed with the completion of the design for the Route 123 improvements based on the "proposed design" which was reviewed at the Traffic Advisory Committee Meeting on April 14. This design will include a traffic signal at the Merchant-Savile Lane intersection.

You are hereby authorized to resume work on this project and we would like to have a revised progress schedule covering the remaining work to be accomplished. If you have any questions regarding the above, please contact S. R. Conley.

Very truly yours,

  
H. M. Shaver, Jr., State  
Location and Design Engineer
